

# Laser Marking System for Labels

## Streamlining Label Marking with Laser Precision

Designed to effortlessly mark barcodes, logos, text characters and serial numbers on multi-layer acrylic/vinyl labels. With a barcode reader for seamless program selection, this machine delivers unlimited barcode and serial number possibilities. And with the added capability of reading from a database, the system is fully customizable to meet all your labeling needs.

The cutting blade is self-lubricating for smooth cuts after laser processing. You can choose between continuous or single marking modes, providing maximum flexibility when creating labels. For more information, reach out to our engineering team today.
